## TABLE AND TABLE BASE

# Bridge Extendible Table

Designed by Atmosfera Creative Lab

The bridge is not just an engineering work or a frame for the landscape, but also a walkway towards the future, a link between cultural identities and the real sharing of different worlds. Bridge is born from the inspiration, it's an extendable aluminium table of the new collection, with stoneware top, available in 2 finishes, accomodates up to 12 guests. Robust, minimal, and pratical: in one word, Bridge.
