

RUBINO MATTRESS

Height

26cm

Top Coating

Fabric: Polyester microfibre

Padding: Polyester microfibre

Technology

Myform Memory

Myform Memory is our formula to ensure optimum performance in terms of reactivity in the material while preserving its softness and elasticity. It has excellent ergonomic properties and effectively distributes the pressure of the body on the mattress. It facilitates the natural movements of sleep by means of the typical comfort of memory foam.

Myform Extension

Thanks to its capacity for support, this material offers maximum elasticity in a balanced way, and ensures easy movement in sleep, resulting in excellent lasting comfort. Furthermore, the material is ergonomically stable in terms of external temperature.
